**Narrative:**

The event started on time and ended on time. All 7 sessions ran on time. We gave out awards for each session immediately after the session finished. We gave out awards in each weight category for 1st,2nd,3rd.

We used a marshal table separate from the announcer, and the back room was set up like that of a national level meet with weight changes being done with the marshal communicated from the marshal table to the announcer. was in the warm up room and separate from the competition hall.

We managed the competition using the OWLCMS software system and associated hardware. We used full electronic scoring with referee buzzers and audience facing attempt display. The system ran smoothly. A webcam was used to display the lifting in the warm up room from the competition and hall and also as a livestream for spectators to watch on the internet.
